Full Stack Web Developer • +50937567873 • keiteldog@gmail.com • github.com/KeitelDOG • linkedin.com/in/keiteldog/ • megalobiz.com

## TECHNICAL SKILLS

### Languages & Frameworks Testing Suites

Javascript ES5 ES6, jQuery, Mocha, Chai,  
React, Node, Express, Java, Jasmine, Jest,  
Android, PHP, Laravel Enzyme,

### Front-End Design

HTML5, CSS, Android  
Layout, Material UI,  
Bootstrap

### Database & ORM

MySQL, MongoDB, Sequelize,  
Redis, SQL Server, Bookshelf,  
Knex, AWS Elastic Beanstalk

### Tools

Git, npm, Webpack,  
Babel, Circle CI,  
Composer, Docker

## SOFTWARE ENGINEERING PROJECTS

**Bullseye** | Software Engineer | *Node, React, Javascript, Mocha, MySQL, Git, npm, AWS EC2, Ubuntu, Nginx*

*A Web Application for buying, selling and reviewing Products*

- Improved Database speed for serving main queries under 20 milliseconds with 20 millions of related records.
- Prepared backend service to handle Web Scaling of more than 1,000 requests per second during 1 minute with Load Balancing using AWS EC2 with Ubuntu and Nginx.

**Housemania BnB** | Software Engineer | *Node, React, Javascript, jQuery, Jest, Enzyme, Mocha, Circle CI, HTML & CSS, MongoDB, Git, npm, Webpack, Babel, AWS Elastic Bean*

*Present the overview of a House in a renting system*

- Deployed a React application on EC2 via AWS Elastic Beanstalk with Node server that shows an overview of the house.
- Designed complex MongoDB schemas for houses and photos, and combined 3 services together on a Node proxy.

**Megalobiz** | Full Stack Engineer | *PHP, Laravel, MySQL, Redis, Javascript, JQuery, Http Guzzle, Facebook SDK, Id3 Tag, HTML & CSS, DigitalOcean Droplet & s3 Storage* | **Megalobiz Web App**

*A Music Web App that allows Users to connect to Artists via their Songs, Albums, Lyrics, Posts, etc.*

- Received from 100 to 14,000 visitors/day after increasing page speed from 17 sec to 4 sec, from 36 to a score of 95 in Google Pagespeed Insight, and improving SEO for better Google Ranking.
- Developed an LRC Maker where 17,000 users synchronized 84,000 lyrics with music reaching more than 1 Million LRC downloads.
- Load balancing with Nginx reverse proxy with private network Database Server.

## PROFESSIONAL EXPERIENCE

**Ministry Of Justice** | Database Administrator

2010 - 2021

*Port-au-Prince, Haiti*

- Manage and backup existing SQL Server and MySQL databases. Create queries and dynamic reports with advanced SQL script with MS Access Report.
- Created applications that collected and managed data for Human Resources on career, insurance and also data for Equipment.

## EDUCATION

**Saint-Louis de Gonzague**

*Secondary Education from full 7th to Philo - BAC I, BAC II*

1994 - 2001

**Hack Reactor**

*Hack Reactor Remote Immersion Software Engineer - Certificate*

2019

**Codepath**

*Android Bootcamp Remote*

2016

**CREFIMA Universite**

*Software Development - License*

2011 - 2015

## PERSONAL

**Interests:** Video games, Football with Brazil as my favorite team and Athletics. I won 6 gold medals and 2 silver from School on Track & Field long jump, triple jump and 800m track. Set a record of 12m39 in Triple Jump, performed 6m40 in Long Jump and 2:19s in the 800m. I have the spirit of a champion.
