Languages & Frameworks	Testing Suites	Front-End Design	Database & ORM	Tools & DevOps
Javascript, React, React Native, NextJS, Node, Express, Java, Android, PHP, Laravel, C#	Jest, Enzyme, Mocha, Chai, Jasmine	HTML5, CSS, Android Layout, Material UI, Bootstrap	MySQL, MongoDB, Sequelize, Redis, SQL Server, Bookshelf, Knex, ObjectBox	Linux, Ubuntu, Fedora, Git, NPM, Circle CI, Composer, Docker, AWS

## SOFTWARE ENGINEERING PROJECTS SPECIAL ACHIEVEMENTS

**Cross Medias** | Full Stack Project | React Native, NextJS, Node, Javascript, HTML & CSS, MySql, Git, NPM, Jest, Enzyme

A website and App that allow people to opine on most Web Pages, like Articles, Blogs, Services and Media pages.

Site: <https://crossmedias.co>, launching officially on August 2025.

- Submit and crawl URL to create a unique page for each Link following crawling standards like Canonical URL.
- Search existing Links with keywords like a mini search engine, receive trending Links in Feeds like a Social Network.
- Leave a comment or reply on any Link with user Mention, Emoji and Notifications support.

**Bullseye** | Backend Project | Node, React, Javascript, Mocha, MySQL, Git, NPM, AWS EC2, Ubuntu, Nginx

A Web Application for buying, selling and reviewing Products in Hack Reactor @Galvanize project

- Improve Database speed for serving close to 1,000 requests per second during 1 minute under 20 milliseconds with 20 millions of related records.

**Megalobiz** | Full Stack Project | PHP, Laravel, MySQL, Redis, Javascript, jQuery, Http Guzzle, Facebook SDK, Id3 MP3 Tag, HTML & CSS, DigitalOcean Droplet & s3 Storage

A Website that allows Users to connect to Haitian's Artists and their Songs, and to synchronize Lyrics with any music (LRC)

- Received from 100 to 14,000 visitors/day in 2 months after improving SEO for better Google Ranking. Reaching 52,000+ pageviews/day and 538K unique Users a month.
- Developed an LRC Maker where 60,000+ users synchronized 287,500 lyrics with music reaching millions LRC downloads.
- Load balancing with Nginx reverse proxy with private network Database Server.

## PROFESSIONAL EXPERIENCE

**Ministry Of Justice of Haiti** | Computer Technician

2010 - 2024

- Manage and back up existing Access Database, and occasionally SQL Server and MySQL databases for other projects and the WordPress Website. Create queries for statistics reports.
- Create applications that collect and manage data for Human Resources on career, and inventory data for Equipment.

**Freelance** | Full Stack Web Developer

2017 - 2024

- Collaborate with programmers to develop Applications and API. See Portfolio for full details.

## SCHOOL AND PROFESSIONAL EDUCATION
